Increase ROAS CheatSheet
Mind Map for D2C Brands

ROAS

Cost Per Order

Click To Purchase%

1. Landing Page Speed
- Higher Speed > Better CR%
- Ensure LP passes Core Web Vitals

2. Quality of Audience
- High quality users to wait for a longer time till the page loads as the need-product fit is higher
- Higher Quality > higher CR%
- Quality is driven by Offer, Creative & Audience Targeting

1. User Interface
Look & Feel of the LP
Eg: White space % on the LP. Higher it is, better the CR%

2. User Experience
- LP Fow: Asking 5 fields in 1 go VS 3+2 Fields in two screens.
- Have different Lp for Different channel/campaign
- High Intent Campaign/ Channel > Have low friction LP (Ask 2 fields)
- Low Intent Campaign/ Channel > Have high friction LP(Ask 5 fields)

3. Content
- Persuading, Logical & Emotional Content
- Social Proof - testimonials, publications etc.
- Eg: "Rohit from Delhi bought this pant Just now "
- Claims & Results

4. Audience
- Better quality audience > better LPV to Conv%
- eg: people searching for your product (search ads) will have higher CR% than pushing ads to people (meta ads)

5. Great Offer
Higher the need & crazy the offer, higher the Lp's CR%. Eg: FIRST15: 15% off on First Order.

Convert Abandon Cart

1. Retargeting ads on platforms to reminder user of items in cart + give strong offer/discount

2. Abandon Cart **Email/ WhatsApp Journey**
- On D+2 hr, D+1, D+2, D+7 & D+10

3. Optimize Checkout Process
- Eg: guest checkout option should be there.
- Eg: minimize clicks from atc to purchase journey.

4. Implement **Exist intent popups**

5. Create **sense of urgency** with limited time offer or stock.

6. **Multiple Payment Options**

7. **Transparent Pricing** and **Policies:**
- Clearly display the total cost, including taxes and shipping fees, upfront.
- Provide transparent information about return policies, warranties, and customer support.

CTR%

1. Great Offer significantly influences the CTR% & Click to Purchase.
- 15% discount on First order.
- 50% discount on orders above 2K.

+ 15 more ways.

2. Duration of Video: Try to keep it under 40 sec.

3. Have 70-30 mix of video & static.

4. Input right **aspect ratios** of creatives for right placements
- Square templates: for square placements (1:1), such as feed and in-stream video
- Vertical templates: for vertical placements (9:16), such as stories

Ad Messaging

1. Identify top 3 **consumer segments** for the product.

2. For each segment,
a. Identify top **3 Desires** & Motives to purchase
b. Identify top **3 Barriers**((pain points, fears etc)) to purchase

3. Go deeper by asking "Why" for each of the behaviour identified.

4. For each behaviour above, identify what's **1 key takeaway** you would TG to get after watching the ad.

5. You will get list of ad messaging. **Shortlist** the one you find TG will relate to the most.

Creatives (Delivering Ad Messaging)

1. Static Creatives
a. Testimonial screenshots.
b. Replies to customer comments screenshots.
c. Before & after.
+ 6 more ways

2. Video Creatives
A. Hook Rate
a. Question hook
b. Problem Solving hook
c. Data hook
+ 15 more ways.

B. Creative Themes
Improve your hold rate.
- Founder
- Fake Podcast Ads.
- Us vs Them
- Whiteboard/Chalkboard

+ 7 more ways.

Media Buying Optimization

1. Out of Learning:
Input min. budget to get alteast 7-8 events per day

2. Structure
- 1 Product per Adset or Campaign.
- 1 Category or product per Campaign
- Top of Funnel(Interests, Advantage, LAL etc) & Remarketing Adsets should be in different campaigns.

3. Audience Overlap
- High Overlap > High CPMS
- Overlap between 30- 50%: Run Different Creatives
- Overlap greater than 50%: Consolidate Adsets

4. Priortize Channels:
Eg: For a D2C brand, don't try to make Linkedin, X work before cracking Meta
Eg: If you are selling product on Marketplaces, it doesn't make sense to compete with the likes of Amazon for your own brand query on Search Ads/Shopping campaign.

Principles

CPM (Decrease)

1. Audience size
- Minimum 20 Lakh
- Narrower the audience size, higher the CPM

2. External Event
- You may attract higher CPMs during holidays due to higher competiton.

3. Frequency cap
- Higher the frequency > Higher the CPM
- If Frequency > 4, refresh creative or expand audience

4. Creative quality and relevance
- Higher engagement (like, comments, shares)> Lowers CPM

+ 2 more ways.

Profit Margins

1. Right Pricing Strategy
- Nothing boosts margins than playing on a premium price point.

2. High AOV helps in higher margins.

3. Reduce Overall CAC by increasing organic acquisition %
- Referral programs + WOM

2. Reduce RTO, Returns & Cancellation
a. Reduce Cash on Delivery (COD)
- Give incentives on prepaid options.

b. Provide a **Cancellation** option before the order is shipped
c. Communication Post Purchase
- real-time order tracking and communicate shipping updates to customers
- **Communicate** social proof, benefits of product etc to intensify excitement.

d. Improve delivery speed reduces cancellation.

3. Supply Chain Efficiency
- Optimize the supply chain for cost-effectiveness
- Negotiate better terms with suppliers and explore bulk purchasing options.

4. Minimize storage costs.
- Utilize data analytics to forecast demand accurately and avoid overstock or stockouts.

5. Shipping and Fulfillment:
- Negotiate favorable shipping rates with carriers.
- Offer various shipping options to customers with transparent pricing.

6. Minimize transaction fees by exploring alternative payment methods.

7. Have a **lean team** as much as possible

Life Time Value

1. 10x better Product with **high PMF**
- All the below points is useless if point 1 is not met.
- High PMF = f(50% NPS, 50% Referral, 50% Renewal)

2. Exceptional Customer Service: Provide outstanding support to build customer trust and loyalty.

3. Subscription Models: Introduce subscription services with incentives for recurring purchases.

4. Cross-selling and Upselling: Leverage CRM(WhatsApp, Email, SMS) with educational & offer based content to Cross-sell & Upsell

5. Repeat Purchase: Send timely reminders for product replenishment with incentives for repeat purchases.

6. Community Building: Foster a sense of belonging through social media or forums(Slack, Discord, Whatsapp) to build brand loyalty.

7. Surprise and Delight: Occasionally surprise customers with exclusive discounts, gifts, or early access.

8. Acquire high intent customers.
- High intent customers from organic, referral & wom may have higher likelihood to contribute to higher LTV

AOV

1. Launch Higher Volume Variant
- Eg: Sell 700gm cereal vs 200gm cereal

2. Bundle Offers
eg: Offer 20% discount on bundles as compared to purchasing each item individually.

3. Minimum Purchase Discounts
- Offer a 15% discount for orders over Rs1999.

4. Volume Discounts
- Purchase 2 bottle - 15%discount, 3 bottle - 20% discount

5. Free Shipping Thresholds:
- Free shipping on orders above Rs 999.

+ 10 more ways.
